3. Read the following text, then answer the questions: (6 Marks)

In many countries, solar power is becoming an important source of energy. It uses sunlight to produce electricity without harming the environment. Students in a small Egyptian village built a solar panel system for their school. They learned how sunlight hits the panels and creates energy that can light classrooms and charge devices. The project helped them understand the values of renewable energy and teamwork. It also inspired others in the community to use solar power at home. Now, the school not only saves money but also teaches students how science can improve life.

A. Choose the correct answer from a, b, c, or d: (2 Marks)
